EB-536Wi

DATASHEET

This versatile interactive projector is ideal for delivering high-quality presentations in classrooms and small meeting rooms

The EB-536Wi delivers superior-quality images and a host of additional features as standard to give users more for their money. Ideal for classrooms or small meeting rooms, this projector can be wall or ceiling mounted. It also includes a range of interactive features, including a fast-syncing pen for precise writing, which are available to use straight out of the box.

High-quality image

Complete with our 3LCD technology, the EB-536Wi displays superior-quality, bright images with more accurate colours. The image can be seen even in brightly-lit rooms thanks to an equally high white and colour light output. Image detail is clear thanks to a high contrast ratio and our new short throw lens means sharper images and improved focus.

More value for your money

The lamp in the EB-536Wi now lasts up to 10,000 hours in eco mode. The projector even conserves power during presentations by automatically adjusting the light output depending on the content. The A/V mute function pauses the presentation and dims the lamp by 70% to conserve energy while the projector is not in use. The projectors' built-in 16w speaker means audio content can be played directly through the projector, without the need for additional external speakers. The microphone input transforms the projector into a PA system, meaning presenters can be easily heard in a classroom environment.

Easy to use interactivity

Driverless installation and auto calibration makes setting up the EB-536Wi quick and easy. The EB-536Wi features dual pen capability, meaning two users can annotate across the entire screen area simultaneously using separate attributes¹. The interactive pens are now also faster-syncing and more accurate for smooth, precise writing. Easy Interactive Tools software provides users with a wide-range of interactive features.

ASTRAZENECA

1. WHAT IS THE COVID-19 VACCINE ASTRAZENECA?

The COVID-19 Vaccine AstraZeneca is an investigational drug that is currently being studied in phase III clinical trials. The FDA Philippines has authorized its emergency use to prevent COVID-19 in individuals 18 years of age and older under an Emergency Use Authorization (EUA).

2. WHAT IS AN EMERGENCY USE AUTHORIZATION (EUA)?

EUA is an authorization issued for unregistered drugs and vaccines in a public health emergency. The EUA is not a Certificate of Product Registration (CPR) or a marketing authorization.

Because of the COVID-19 pandemic, the FDA Philippines has made the COVID-19 Vaccine AstraZeneca available for emergency use under an EUA. It has not undergone the same type of review as an FDA-approved or cleared product. An EUA may be issued when certain criteria are met, which includes that there are no adequate, approved, available alternatives. It was also based on the scientific evidence available showing that the vaccine may be effective to prevent COVID-19 during the COVID-19 pandemic, and that the benefits of the vaccine outweigh the risks.

3. WHO SHOULD GET COVID-19 VACCINE ASTRAZENECA?

FDA Philippines has authorized the emergency use of the COVID-19 Vaccine AstraZeneca in individuals 18 years of age and older.

4. WHO SHOULD NOT COVID-19 VACCINE ASTRAZENECA?

You should not get the COVID-19 Vaccine AstraZeneca if you had a severe allergic reaction after a previous dose of this vaccine. Seek consultation with your Physician or healthcare providers regarding your queries and concerns.

5. WHAT SHOULD YOU MENTION TO YOUR VACCINATION PROVIDER BEFORE YOU GET THE COVID-19 VACCINE ASTRAZENECA?

Tell your vaccination provider if you have any (1) allergies, (2) bleeding disorder or are currently on a blood thinner, (3) Symptoms like fever, colds, cough,

sore throat, etc, (4) History of exposure to a confirmed or suspected COVID-19 case in the past two weeks, (5) Previously treated for COVID-19 in the past 90 days, (6) Pregnant or plan to become pregnant, (7) Breastfeeding, (8) Received any vaccine in the past 2 weeks, (9) Immunocompromised or are currently on/have been in the past six months on a medicine that affects your immune system.

Depending on the results of the health screening by your vaccination provider, your vaccination might get deferred to another date, or you might be required a medical clearance from your Attending Physician before you'll be allowed to get the vaccine.

6. HOW IS THE COVID-19 VACCINE ASTRAZENECA GIVEN?

The vaccine will be given to you as an injection into the muscle. The vaccine will be given in 2 doses given 4-12 weeks apart. If you receive one dose of the COVID-19 Vaccine AstraZeneca, you should receive a second dose of this same vaccine 4-12 weeks later to complete the vaccination series.

7. WHAT ARE THE BENEFITS OF COVID-19 VACCINE ASTRAZENECA?

COVID-19 Vaccine AstraZeneca stimulates the body's natural defense (immune system). It causes the body to produce its own protection (antibodies) against the virus. This will help to protect (70.4% efficacy against symptomatic COVID-19, 14 days after the second dose) you against COVID-19 in the future. The duration of protection against COVID-19 is currently unknown. This is not a live virus and cannot cause a person to get COVID-19.

8. WHAT ARE THE RISKS OF COVID-19 VACCINE ASTRAZENECA?

Side effects that have been reported include: (1) injection site tenderness, pain, warmth, redness, itching or swelling (2) generally feeling unwell, (3) feeling tired (fatigue), (4) chills or feeling feverish, (5) headache, (6) feeling sick (nausea), (7) joint pain or muscle ache, (8) fever. There is also a remote chance that the AstraZeneca COVID-19 Vaccine could cause a severe allergic.

These may not be all the possible side effects of the vaccine. Serious and unexpected side effects may occur. The COVID-19 Vaccine AstraZeneca is still being studied in clinical trials. Seek consultation with your physician or nearest health facility or call the

INFORMED CONSENT

I confirm that I have been provided with adequate information about the donated SINOVAC COVID-19 vaccine, its Emergency Use Authorization from the Philippine Food and Drug Administration with advice for healthcare workers directly exposed to COVID-19 patients and those with comorbidities, and the recommendations of the interim National Immunization Technical Advisory Group in the absence of any other vaccine to provide workers in frontline health services the autonomy to decide to be vaccinated with this specific batch of donated SINOVAC vaccines without prejudice to immediate eligibility for other vaccines. I have received sufficient information on the benefits and risks of COVID-19 vaccines and I understand the possible risks if I am not vaccinated.

I confirm that I have been screened for health conditions that may merit deferment or special precautions during vaccination as indicated in the Health Screening Questionnaire.

I was provided an opportunity to ask questions, all of which were adequately and clearly answered. I, therefore, voluntarily release the Government of the Philippines, the vaccine manufacturer, their agents and employees, as well as the hospital, the medical doctors and vaccinators, from all claims relating to the results of the use and administration of, or the ineffectiveness of the SINOVAC COVID-19 vaccine.

I understand that while most side effects are minor and resolve on their own, there is a small risk of severe adverse reactions, such as, but not limited to allergies, and that should prompt medical attention be needed, referral to the nearest hospital shall be provided immediately by the Government of the Philippines. I have been given contact information for follow up for any symptoms I may experience after vaccination.

I understand that in case I suffer a serious adverse event, which is found to be associated with the SINOVAC COVID-19 vaccine or its administration, I have a right to health benefit packages under the Philippine Health Insurance Corporation

I authorize releasing all information needed for public health purposes including reporting to applicable national vaccine registries, consistent with personal and health information storage protocols of the Data Privacy Act of 2012.
